INVESTOR PRESENTATION • APRIL 2025

DISCLAIMER

This presentation is for informational purposes only and is not an offer to sell or a solicitation of an offer to buy any securities in infinitii ai inc. (“infinitii ai” or the “Company”), nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction. None of the securities of the Company have been registered under the United States Securities Act of 1933, as amended (the “1933 Act”) or any applicable securities laws of any state of the United States and such securities may not be offered or sold in the United States or to, or for the account or benefit of a U.S. person absent registration or an applicable exemption from the registration requirements of the 1933 Act. Certain information contained herein has been provided by or obtained from third-party sources and has not been independently audited or verified by infinitii ai. No representation or warranty, express or implied, is made by infinitii ai as to the accuracy or completeness of such information contained in this document, and nothing contained in this document is, or shall be relied upon as, a promise or representation by infinitii ai

FORWARD-LOOKING STATEMENTS

Statements included in this presentation that do not relate to present or historical conditions are “forward looking statements”. Forward looking statements are projections in respect of future events or future financial performance or both. In some cases, you can identify forward looking statements by terminology such as “may”, “should”, “intend”, “expect”, “plan”, “anticipate”, “believe”, “estimate”, “predict”, “potential”, or “continue”, or the negative of these terms or other comparable terminology. In particular, this presentation contains forward looking statements relating to infinitii ai’s business and its future opportunities and business strategies, including, but not limited to the Company’s ability to: (i) maximize growth and shareholder value by realizing expected growth of markets including Smart City Water Infrastructure, Smart Industry Infrastructure and expansion into other markets; (ii) identify opportunities to help customers save on non-discretionary expenses by implementing its software solutions; (iii) increase sales to current customers and also sell to new customers; and (iv) become an industry leader in its areas of expertise. The forward looking statements contained in this presentation are based on certain key expectations and assumptions of the Company concerning the number of users that will license infinitii ai’s software, the amount of expenses required to operate infinitii ai’s business, business prospects, strategies, regulatory approval, the sufficiency of budgeted capital expenditures in carrying out planned activities and the ability to obtain financing on acceptable terms, all of which are subject to change based on market conditions and potential timing delays and other factors beyond the Company’s control. These assumptions and factors are based on information currently available to the Company, including information obtained from third-party sources. Although management of the Company consider these assumptions to be reasonable based on information currently available to them, such assumptions may prove to be incorrect and accordingly may have a significant negative impact on the projections set out in this presentation. The forward-looking statements contained in this presentation are only predictions and involve known and unknown risks, uncertainties and other factors, which may cause the Company’s, or its industry’s, actual results, levels of activity or performance to be materially different from any future results, levels of activity or performance expressed or implied by the forward-looking statements. These risks and uncertainties relate to, among other things:

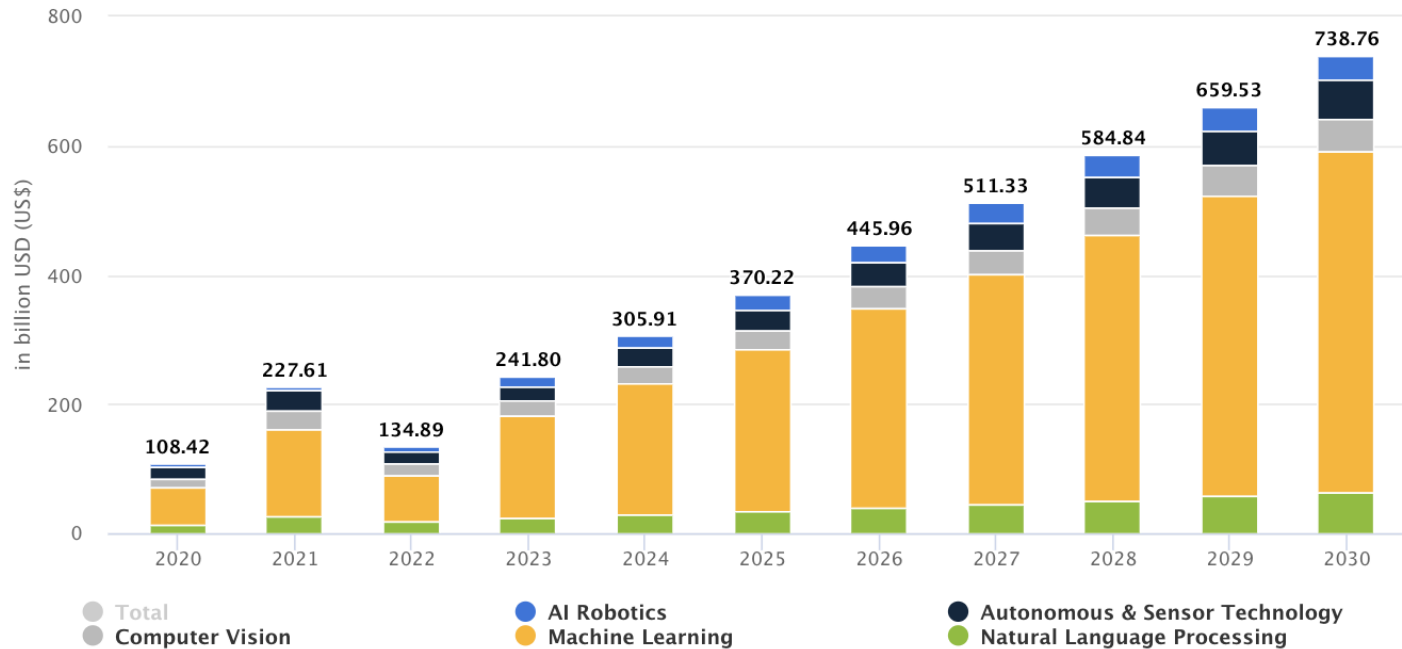

1. General economic conditions and market uncertainty, including business competition;
2. Changes in laws and regulations;
3. General political and social uncertainties;
4. The viability and marketability of infinitii ai’s software solutions;
5. The Company’s failure to successfully implement its marketing plan;
6. The development of superior technology by the Company’s competitors;
7. The failure of consumers to readily adopt and use infinitii ai’s software;
8. Risks associated with the Company’s ability to obtain and protect rights to its intellectual property, including its trademarks and software code;
9. Risks and uncertainties associated with the Company’s ability to raise additional capital;
10. Risks associated with the failure to retain and attract key management and personnel;
11. The Company’s failure to identify suitable acquisition targets and to consummate any such acquisitions; and
12. Other factors beyond the Company’s control.

Readers are cautioned that the foregoing factors are not exhaustive. You are urged to consider these factors carefully in evaluating the forward-looking statements contained herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by these cautionary statements and the risk factors set forth in infinitii ai’s quarterly and annual reports filed on SEDAR and available at www.sedarplus.ca.

MARKET OPPORTUNITY

AI SOFTWARE – 15.8% CAGR TO \$738.8B IN 2030 WITH MACHINE LEARNING DOMINATING ALL OTHER FORMS OF AI

BUSINESS MODEL

DRIVEN BY RECURRING SAAS REVENUE WITH A 96% CUSTOMER RENEWAL RATE

infinittii ai SaaS business model

- We offer recurring long-term SaaS revenue contracts
- We engage directly with customers on large Smart City water and Smart Industry infrastructure projects
- We partner with engineering firms that lead projects or integrators that implement our products
- We offer professional services that drive recurring product revenues in new and existing vertical markets
- Every project involves valuable time-series data that must be analyzed and shared to avoid environmental impact costs
- We apply AI-driven Machine Learning and Predictive Analytics to provide forecasts for weather-related impacts on infrastructure operations as well as their service areas
- In every sale we become part of non-discretionary Operating Expense (OpEx) infrastructure processes

SAAS GROWTH FROM \$186.6B TO \$720.4B BY 2028

Forbes

The Real Reason Why Venture Capitalists And Investors Love SaaS Companies

Omari Rigg Forbes Councils Member
Forbes Business Council COUNCIL POST | Membership (Fee-Based)

Jun 9, 2022, 08:15am EDT

State of the SaaS market

- In late 2022, the global SaaS market was valued at \$186.6 billion. By 2028, it's expected that this number will reach \$720.44 billion, with a CAGR of 25.25% during the forecast period of 2022 – 2028
- In the last 10 years, SaaS funding has increased by almost 7X and outpaced the growth of overall venture capital funding by almost 6X
- SaaS platforms can provide a strategic upper hand to acquire insight from large amounts of data and cloud-based infrastructure that offers flexibility and control. We're seeing an overall heightened demand for high-quality SaaS businesses
- The increase in investor interest surrounding SaaS is primarily due to its growing use case and expansion into new industries

CORPORATE PERFORMANCE

HIGHER SALES, LOWER EXPENSES IN FY2024

infinittii ai Announces Completion of Integration Project for TREKK Design Group, Now Testing PreView Underground Camera Systems

Monday, May 6, 2024

[Company Profile](#) | [Follow Company](#)

infinittii ai CEO Jean Charles Phaneuf shakes hands with TREKK Design Group's Senior Innovation Specialist Jared Carey. infinittii flowworks is now being tested with TREKK PreView in Kansas City, Omaha, Cedar Hill and St. Louis

FY2024 financial highlights

- For the year ended June 30, 2024, the Company generated **\$2,406,442 in revenues** compared to **\$2,052,475** in FY23, a **17% increase and annual sales record**
- Operating expenses for FY24 of **\$3,424,988** compared to **\$4,589,662** in FY23, a **25% decrease**
- The cash required by the Company's operating activities of **\$661,804 decreased by 46%** in FY24 compared to the same period in FY23 as management continued to make **judicious use of cash**

FY2024 operational highlights

- Competitive bids with AECOM and Flowmetrix helped capture more than **90% of the Greater Toronto and Hamilton Area (GTHA)** municipalities serving a **population of 6.6 million**
- TREKK Design Group **increases infinittii ai's U.S. install base by 11 customers** including **Kansas City, MO, Omaha, NE, Cedar Hill, MO and St. Louis, MO** and brands its U.S. data services offering **"Waterspout powered by infinittii ai"**

10 CONSEQUITIVE QUARTERS OF YEAR-OVER-YEAR REVENUE INCREASES AT END OF Q2-FY2025

“In Q2 we continued to make progress on recurring revenues while keeping costs under control. The company is staying on track by focusing on steady growth as infinitii ai reached its tenth consecutive quarter of year-over-year revenue increases.”

“We are maintaining our focus on upselling customers with our new generation of machine learning software while engaging with a wider network of engineering and hydrologist firms, sensor and flow metering equipment providers, as well as boots-on-the-ground infrastructure services collaborators.”

Jean Charles Phaneuf, CEO, infinitii ai

Q2-FY2025 FINANCIAL HIGHLIGHTS

Financial highlights for the six-month period ended December 31, 2024

- The Company generated total revenues of **\$1,384,892** compared to **\$1,107,548** during the same period in 2023, representing a **25% increase**
- Total comprehensive loss for the six-month period was **\$281,355**, down from **\$596,839** in the period ended December 31, 2023, representing a **53% decrease**
- Expenses of **\$1,692,220** for the six-month period were lower than the comparable period's operating expenditures of **\$1,713,274**, representing a **1% decrease**.

VALUE PROPOSITION

PROBLEMS FACING INFRASTRUCTURE DATA PROJECTS

Sensor data explosion

Problem

Thousands of IoT data points creating big-data issues

Proprietary data vendor maze

Problem

Many vendor solutions have proprietary data mazes

Vast amounts of public data

Problem

Satellite, USGS, NOAA and other public datasets are hard to integrate

Requirement for single interface

Problem

How do you pull all this together to make sense of operations data?

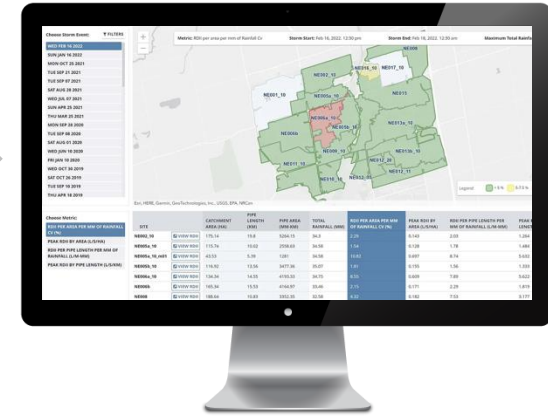

AI-DRIVEN SOFTWARE SOLVES THOSE PROBLEMS

Data collection
GIS dashboard
visualization of all
available data sources

Data transformation
Streaming real-time data
with AI-driven Machine
Learning automation

Data analysis
Predictive analytics and
custom calculations
drive new insights while
cutting costs of analysis

HOW CUSTOMERS MEASURE SUCCESS

Evaluating model performance

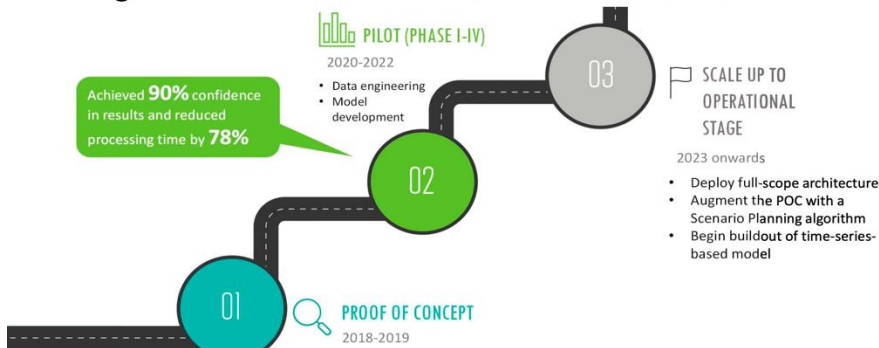

<p>18 WEEKS → 18 DAYS 78% reduction in time</p>	TRADITIONAL I&I ANALYSIS	INTELLIGENT I&I TOOL
	Reliance on third-party software → Separate data extraction, analysis and mapping processes →	Accessible, programmed backend calculations developed in-house ✓ Data integration into a consolidated data warehouse, Power BI dashboard, GIS and model scripts ✓

- 78% reduction for Inflow & Infiltration (I&I) analysis, from 18 weeks to 18 days

Overall benefits:

- Proactive system management
- Better understanding of the system over time
- More informed data-driven decision making
- Machine learning predictions for what might happen at wastewater facilities under different scenarios

Intelligent I&I: current state and future outlook

Overall benefits

- Proactive system management
- Better understanding of the system over time
- More informed data-driven decision making
- Predictions for what might happen at wastewater facilities under different scenarios

Source: York Region I&I Reduction Team presentation at ACE23 Conference

AWARD-WINNING MACHINE LEARNING CUSTOMERS

Water Environment Federation/American Water Works Association Innovation Award for the 2023 Intelligent Water Systems Challenge

- The Regional Municipality of York won American Waste Water Association and Water Environment Association awards in 2023 followed by an International Water Association award in 2024 for using infinitii ai machine learning software for managing Inflow and Infiltration (I&I)
- York Region designed a Machine Learning model to process raw data into actionable information to help make proactive and better-informed decisions to manage infrastructure
- Real-time and historical data are integrated to create a priority map that informs future operations and maintenance work
- The model can predict the way the system would respond to hypothetical precipitation events

Smart Industry applications

- **Predictive maintenance:** Predict when equipment is likely to fail, allowing for proactive maintenance
- **Anomaly detection:** Detect unusual patterns or anomalies in industrial infrastructure performance
- **Energy management:** Optimize energy usage in industry infrastructure facilities by predicting energy demand and adjusting production
- **Quality control:** Monitor and control the quality of outputs in industrial infrastructure processes
- **Environmental monitoring:** Monitor conditions in industrial infrastructure facilities such as air and water quality

TESTIMONIALS

TESTIMONIAL – SCG FLOWMETRIX

“We’ve been working with infinitii ai since 2016 starting with the City of Toronto. As our partnership grew deeper, we noted infinitii ai’s R&D push into Machine Learning, which brought it to the forefront of software providers, making it a top choice for SCG Flowmetrix and our customers.”

**Sam Mills, Vice President
SCG Flowmetrix**

“The 2023 SCG Flowmetrix partner sale to Peel Region surpasses 2022’s record sale to Los Angeles County. This RFP win is a testament to the value of our new product portfolio and that our company is heading in the right direction.”

**Jean Charles Phaneuf,
CEO, infinitii ai**

HOW TREKK LEVERAGED PROFESSIONAL SERVICES FROM INFINITII AI TO BUILD A NEW MARKET IN MIDWEST USA

PREVIEW Use Cases

- Monitoring critical or challenging flow monitoring locations
- QA/QC for flow monitoring
- CSO and SSO monitoring and alarming
- Maintenance operations work verification and remote inspections
- SCADA system verification
- Security assurance
- Monitoring for illicit dumping in the collection system
- Prioritization of inflow and infiltration (I/I) studies
- Micro-monitoring
- CCTV prioritization

“We are capable of writing our own code,” said Trent, “But we realized that the backbone of our Waterspout system needed an overhaul. And at the same time we reached the conclusion that we really had to get out of the software business to focus on what we do best.”

- Kansas-City-based TREKK Resources has 227 engineering professionals in 11 U.S.-based locations across the Midwestern USA
- Co-founders Kimberly and Trent Robinett hired infinitii ai’s professional services team to integrate flowworks with the TREKK PreView underground camera system
- “Waterspout powered by infinitii ai” has now been rolled out to 11 TREKK clients that include municipalities and other engineering services firms to help avoid sewer backups, wastewater overflows and other costly underground breakages

GROWTH

GROWTH PLAN

Market segment

How we grow

Smart City Water infrastructure

- Leverage existing relationships with customers and engineering partners to upsell our latest portfolio of AI-driven products
 - Execute on go-to-market strategies with tier-1 collaborators such as AECOM, SCG Flowmetrix, TREKK Design Group and Core & Main
-

New Smart City Water applications

- Engage with a wider network of U.S.-based engineering and hydrologist firms, sensor and flow metering equipment providers, as well as boots-on-the-ground infrastructure services collaborators
-

New intellectual property via professional services

- Capture customers who are experiencing shortages of AI/data science talent with professional services offering
- Expand into new market opportunities while earning revenues

GROWTH HIGHLIGHTS

- TREKK Design Group increases infinitii ai's U.S. install base in 2024 by 11 customers including Kansas City, MO, Omaha, NE, Cedar Hill, MO and St. Louis, MO and brands its data services offering as "Waterspout powered by infinitii ai"
- 2024 sales to City of Hamilton, City of Markham, and Halton Region make 90%+ of Greater Toronto and Hamilton Area (GTHA) infinitii ai customers including York Region, Peel Region, and City of Toronto
- Largest sale to date in 2022 to Los Angeles County, USA's biggest producer of recycled water serving 5.6 million people
- New technology platform launched in 2022 features new generation of Machine Learning predictive analytics
