INVESTOR PRESENTATION • NOVEMBER 2026

DISCLAIMER

This presentation is for informational purposes only and is not an offer to sell or a solicitation of an offer to buy any securities in infinitii ai inc. ("infinitii ai" or the "Company"), nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction. None of the securities of the Company have been registered under the United States Securities Act of 1933, as amended (the "1933 Act") or any applicable securities laws of any state of the United States and such securities may not be offered or sold in the United States or to, or for the account or benefit of a U.S. person absent registration or an applicable exemption from the registration requirements of the 1933 Act. Certain information contained herein has been provided by or obtained from third-party sources and has not been independently audited or verified by infinitii ai. No representation or warranty, express or implied, is made by infinitii ai as to the accuracy or completeness of such information contained in this document, and nothing contained in this document is, or shall be relied upon as, a promise or representation by infinitii ai

FORWARD-LOOKING STATEMENTS

Statements included in this presentation that do not relate to present or historical conditions are "forward looking statements". Forward looking statements are projections in respect of future events or future financial performance or both. In some cases, you can identify forward looking statements by terminology such as "may", "should", "intend", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential", or "continue", or the negative of these terms or other comparable terminology. In particular, this presentation contains forward looking statements relating to infinitii ai's business and its future opportunities and business strategies, including, but not limited to the Company's ability to: (i) maximize growth and shareholder value by realizing expected growth of markets including Smart City Water Infrastructure, Smart Industry Infrastructure and expansion into other markets; (ii) identify opportunities to help customers save on non-discretionary expenses by implementing its software solutions; (iii) increase sales to current customers and also sell to new customers; and (iv) become an industry leader in its areas of expertise. The forward looking statements contained in this presentation are based on certain key expectations and assumptions of the Company concerning the number of users that will license infinitii ai's software, the amount of expenses required to operate infinitii ai's business, business prospects, strategies, regulatory approval, the sufficiency of budgeted capital expenditures in carrying out planned activities and the ability to obtain financing on acceptable terms, all of which are subject to change based on market conditions and potential timing delays and other factors beyond the Company's control. These assumptions and factors are based on information currently available to the Company, including information obtained from third-party sources. Although management of the Company consider these assumptions to be reasonable based on information currently available to them, such assumptions may prove to be incorrect and accordingly may have a significant negative impact on the projections set out in this presentation. The forward-looking statements contained in this presentation are only predictions and involve known and unknown risks, uncertainties and other factors, which may cause the Company's, or its industry's, actual results, levels of activity or performance to be materially different from any future results, levels of activity or performance expressed or implied by the forward-looking statements. These risks and uncertainties relate to, among other things:

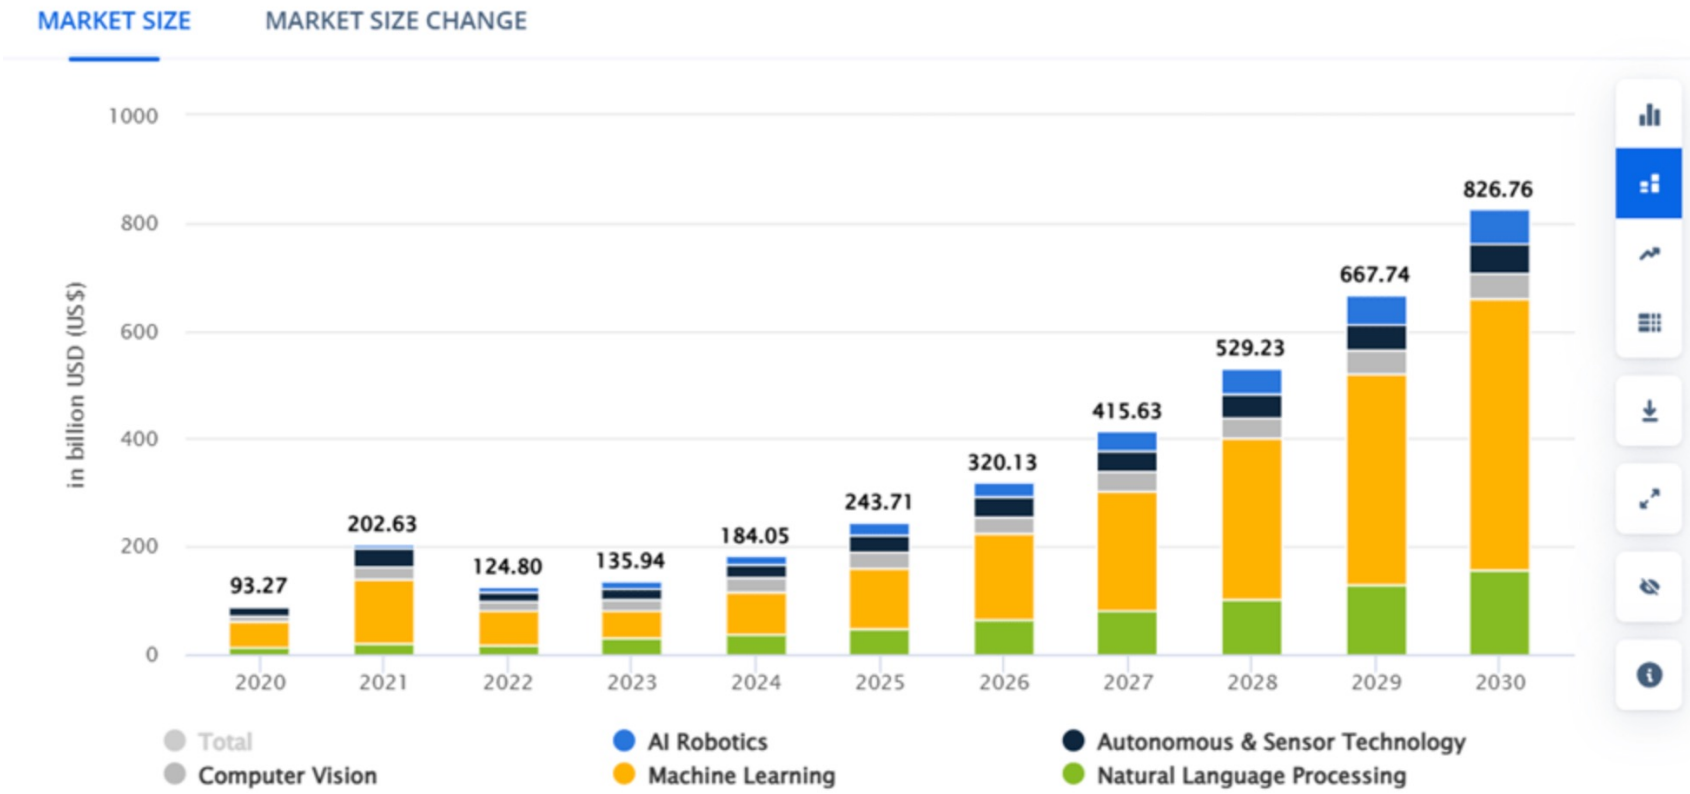

1. General economic conditions and market uncertainty, including business competition;
2. Changes in laws and regulations;
3. General political and social uncertainties;
4. The viability and marketability of infinitii ai's software solutions;
5. The Company's failure to successfully implement its marketing plan;
6. The development of superior technology by the Company's competitors;
7. The failure of consumers to readily adopt and use infinitii ai's software;
8. Risks associated with the Company's ability to obtain and protect rights to its intellectual property, including its trademarks and software code;
9. Risks and uncertainties associated with the Company's ability to raise additional capital;
10. Risks associated with the failure to retain and attract key management and personnel;
11. The Company's failure to identify suitable acquisition targets and to consummate any such acquisitions; and
12. Other factors beyond the Company's control.

Readers are cautioned that the foregoing factors are not exhaustive. You are urged to consider these factors carefully in evaluating the forward-looking statements contained herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by these cautionary statements and the risk factors set forth in infinitii ai's quarterly and annual reports filed on SEDAR and available at www.sedarplus.ca..

MARKET OPPORTUNITY

MARKET OPPORTUNITY

AI SOFTWARE – 26.6% CAGR TO $1.01T IN 2031 WITH MACHINE LEARNING DOMINATING ALL OTHER FORMS OF AI

Notes: Data was converted from local currencies using average exchange rates of the respective year.

Most recent update: Mar 2024

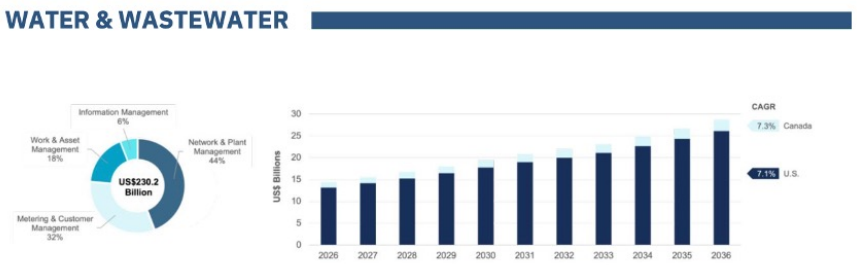

Source: Statista Market Insights

Analysts predict that the AI sector will maintain an extraordinary compound annual growth rate (CAGR) of 26.6% through 2031, pushing the market's value to a staggering $1.01 trillion within just 6 years.

MARKET VALIDATION

WATER INDUSTRY INFRASTRUCTURE FOCUS

U.S. and Canada digital water forecast, 2026–2036 compound annual growth rate.
Credit: Bluefield Research

Digital water investment set to double as utilities move toward system-wide deployment

By **ES&E Staff**

Municipal water utilities across the U.S. and Canada are accelerating investments in digital infrastructure as aging billion by 2036, as utilities increasingly adopt drones, inspection technologies and predictive maintenance tools to prioritize infrastructure investment.

- **Digital water tools including predictive maintenance set to double to $US28.6B**

  Source: Bluefield Research

CATEGORY	RECOMMENDED ACTIONS
Accelerate innovation	① Leverage technology to break down barriers to innovation, address regulatory compliance and mitigate unintended consequences. ② Incentivize investment in innovation and experimentation. ③ Cultivate a technology-savvy water workforce.
Transform water services through next-generation technology	④ Employ digital solutions such as artificial intelligence (AI) and machine learning (ML) to optimize efficiency, operations and water quality. ⑤ Apply real-time monitoring, predictive analytics and material science to create "eternal infrastructure" and support resilient resources. ⑥ Transform water management through expansion of in-home and fit-for-purpose treatment technologies.

- **AI and Machine Learning are recommended actions by water industry experts**

BUSINESS MODEL

BUSINESS MODEL

DRIVEN BY RECURRING SAAS REVENUE WITH A 96% CUSTOMER RENEWAL RATE

infinitii ai SaaS business model

- We offer recurring long-term SaaS revenue contracts
- We engage directly with customers on large Smart City water and Smart Industry infrastructure projects
- We partner with engineering and IT services firms that lead projects or integrators that implement our products
- We offer professional services that drive recurring product revenues in new and existing vertical markets
- Every project involves valuable time-series data that must be analyzed and shared to avoid environmental impact costs
- We apply AI-driven Machine Learning and Predictive Analytics to provide forecasts for weather-related impacts on infrastructure operations as well as their service areas
- In every sale we become part of non-discretionary Operating Expense (OpEx) infrastructure processes

SAAS GROWTH FROM $247B TO $908B BY 2028

Forbes

The Real Reason Why Venture Capitalists And Investors Love SaaS Companies

Omari Rigg Forbes Councils Member
Forbes Business Council COUNCIL POST | Membership (Fee-Based)

Jun 9, 2022, 08:15am EDT

State of the SaaS market

- In late 2025, the global SaaS market was valued at $247 billion. By 2028, it's expected that this number will reach $908.21 billion, with a CAGR of 18.7% during the forecast period of 2024 – 2030
- In the last 10 years, SaaS funding has increased by almost 7X and outpaced the growth of overall venture capital funding by almost 6X
- SaaS platforms can provide a strategic upper hand to acquire insight from large amounts of data and cloud-based infrastructure that offers flexibility and control. We're seeing an overall heightened demand for high-quality SaaS businesses
- The increase in investor interest surrounding SaaS is primarily due to its growing use case and expansion into new industries

WASTEWATER DIGEST

infinitii ai unveils overflow risk and compliance system at WEFTEC

The software leverages existing utility data, providing detailed site-level insights and automated reports without additional infrastructure.

Sept. 28, 2026

ADD US ON GOOGLE

FY-2026 financial highlights

- The Company delivered $2,620,179 in annual revenue, with sales gains in the third and fourth quarters of the fiscal year compared to equivalent periods in FY2025
- In the fourth quarter, revenue rose to $649,765, up 3.9% from $625,302 in the same quarter of FY2025
- Excluding a one-time GST/HST reassessment of $231,255 recorded in the fourth quarter, operating expenses for the quarter fell 6.9% and comprehensive loss fell 43.4% from the same quarter of FY2025, reflecting continued core operating cost discipline
- The net loss for FY2026 was $1,093,483, compared to $778,625 in FY2025
- Cash of $142,842 at June 30, 2026 (June 30, 2025 – $141,295), was supported by an oversubscribed $610,000 convertible note financing closed in October 2025

MANAGEMENT COMMENTARY ON FY2026 AND FORWARD-LOOKING GROWTH INITIATIVES

- *"Our fourth quarter capped a stronger second half of the year, with revenue in Q3 and Q4 outperforming the same quarters in FY2025."*
- *"At the WEFTEC 2026 global tradeshow for water professionals in September, we had excellent response to demos of new software that gives utility operations teams using infinitii flowworks real-time visibility and system-wide intelligence into overflow conditions, paired with automated, audit-ready documentation."*
- *We are also showing key customers how to operationalize high-value calibrated hydraulic models to run continuously, automatically comparing model predictions against live sensor data."*

Intelligent I&I: current state and future outlook

Overall benefits

- 78% reduction for Inflow & Infiltration (I&I) analysis, from 18 weeks to 18 days
- Overall benefits:
  - Proactive system management
  - Better understanding of the system over time
  - More informed data-driven decision making
  - Machine learning predictions for what might happen at wastewater facilities under different scenarios

SOLUTION SET

AWARD-WINNING MACHINE LEARNING CUSTOMERS

Water Environment Federation/American Water Works Association Innovation Award for the Intelligent Water Systems Challenge

- The Regional Municipality of York won American Waste Water Association and Water Environment Association awards, followed by an International Water Association award for using infinitii ai machine learning software for managing Inflow and Infiltration (I&I)
- York Region designed a Machine Learning model to process raw data into actionable information to help make proactive and better-informed decisions to manage infrastructure
- Real-time and historical data are integrated to create a priority map that informs future operations and maintenance work
- The model can predict the way the system would respond to hypothetical precipitation events

- **Environmental monitoring:** Monitor conditions in industrial infrastructure facilities such as air and water quality

TESTIMONIALS

TESTIMONIAL

TESTIMONIAL – SCG FLOWMETRIX

"We've been working with infinitii ai since 2016 starting with the City of Toronto. As our partnership grew deeper, we noted infinitii ai's R&D push into Machine Learning, which brought it to the forefront of software providers, making it a top choice for SCG Flowmetrix and our customers."

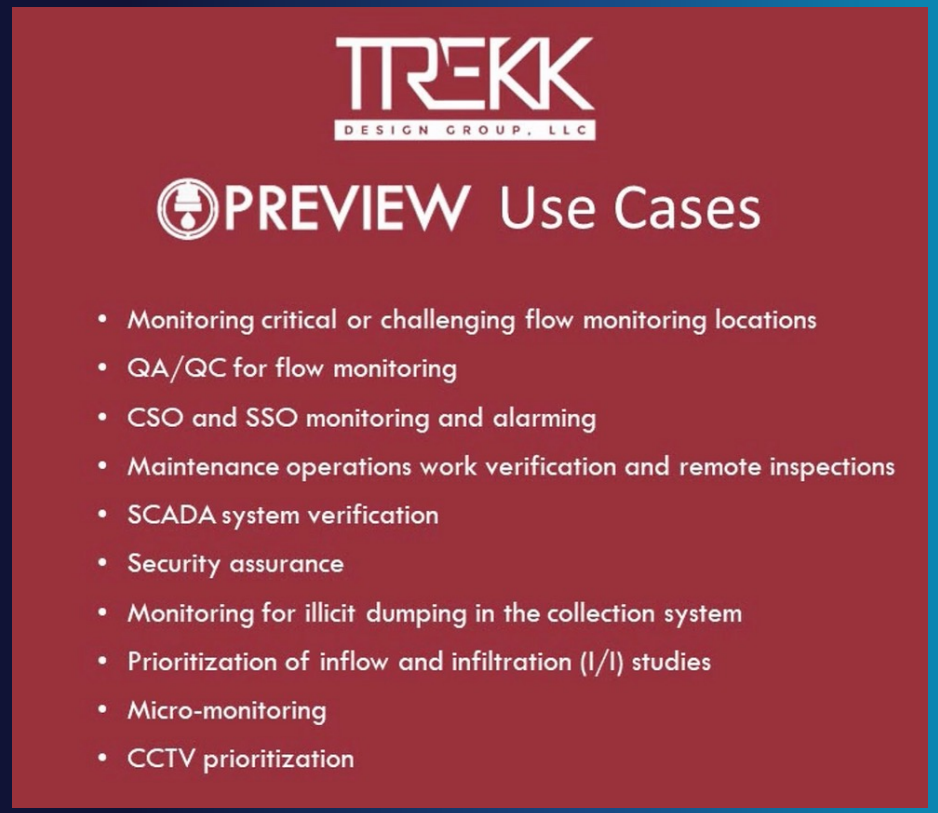

Sam Mills, Vice President
SCG Flowmetrix

"The SCG Flowmetrix partner sale to Peel Region is our largest sale to date. This RFP win is a testament to the value of our new product portfolio and that our company is heading in the right direction."

Jean Charles Phaneuf,
CEO, infinitii ai

TESTIMONIAL

HOW TREKK LEVERAGED PROFESSIONAL SERVICES FROM INFINITII AI TO BUILD A NEW MARKET IN MIDWEST USA

"We are capable of writing our own code," said Trent, "But we realized that the backbone of our Waterspout system needed an overhaul. And at the same time we reached the conclusion that we really had to get out of the software business to focus on what we do best."

- Kansas-City-based TREKK Resources has 227 engineering professionals in 11 U.S.-based locations across the Midwestern USA
- Co-founders Kimberly and Trent Robinett hired infinitii ai's professional services team to integrate flowworks with the TREKK PreView underground camera system
- "Waterspout powered by infinitii ai" has now been rolled out to over 20 TREKK clients that include municipalities and other engineering services firms to help avoid sewer backups, wastewater overflows and other costly underground breakages

GROWTH

THREE-VECTOR GROWTH STRATEGY

Three-vector strategy	How we grow
Expand market reach through new customers	• New dashboarding and mobile applications integrated with the flowworks platform address the requirements of both operators and engineering teams. These innovations offer potential to significantly expand usage for current customers while opening new opportunities across municipal organizations that require integrated tools.
Upsell customers with advanced analytics	• infinitii ai's customer base is transitioning from the Early Adopter to the Early Majority stage – a pivotal growth phase in market evolution that is driving strong demand for advanced analytics and machine learning capabilities. This shift creates substantial upselling opportunities across existing accounts.
Propel expansion through global industry players	• Customer RFPs increasingly call for deeper insights and actionable intelligence beyond basic commodity functionality. As the water and industrial infrastructure market matures in its adoption of analytics and machine learning, this evolution is putting pressure on established equipment providers of sensors, pumps and related hardware to enhance their value propositions. infinitii ai is well positioned to meet this market need and leverage their distribution networks.

SEWER AND STORM SURVEILLANCE BRINGS IN AI TECHNOLOGY

Share

Infinitii AI Inc. has signed a technology professional services and go-to-market agreement with TREKK Design Group to integrate PreView, TREKK's patented sewer and storm surveillance monitoring system with Infinitii Flowworks, a powerful predictive analytics software suite that performs real-time analysis, checks flow monitoring status and sets alarms through a single interface.

"TREKK's reputation is rooted in a commitment to innovation, and we are delighted that more municipal and industrial infrastructure customers in the United States will be using Infinitii Flowworks through this partnership," says Jean Charles Phaneuf, CEO of Infinitii AI.

AI-powered software boosts Peel's sewer monitoring horsepower
